

# Oxygen Bag Valve Mask (BVM) Resuscitation Kit

**A compact unit designed to be easy to use for a quick response to emergencies.**

The Meditech Oxygen BVM Kit is packaged in a padded barrel bag with internal pockets for storing therapy equipment and accessories. The oxygen regulator is thoughtfully designed for ease of use and flow selection.

The case holds a "D" or "Jumbo D" oxygen cylinder which is secured in place with a padded cover and two adjustable retaining straps.

The Meditech Oxygen Resuscitator fulfils your needs on board your vessels to manually provide medical oxygen as required by the medical first aid guide. It is supplied as standard with a 2L medical oxygen cylinder compressed under 200 bars (2900 psi) with a Pin Index outlet connection as per the ISO standard for medical gases. Although additional outlet connections are available upon request, they are not recommended.
